## 2. Low Traffic Neighbourhoods (LTNs) previously delivered through the London Streetspace Programme

**Table 1.3** summarises the current status of Low Traffic Neighbourhood schemes implemented using TfL London Streetspace Programme (LSP) funding between May-October 2020. This information is correct to the best of TfL's knowledge, but may contain inaccuracies where boroughs have not informed us of modifications to schemes. Note that within the 'status' column, 'paused' refers to schemes temporarily halted or otherwise under consideration; and 'suspended' refers to schemes implemented and then removed.
