Hi [redacted],

Thank you very much. I am chasing our Bus Client Team on this.

Best regards,
Martin

Hi Martin

Just checking if you managed to resolve the issue with the macros?

Thanks,

Hi [redacted]

Thank you and apologies again for the continued delay.

I have now completed data input in the FIA for both options, so that the spreadsheets are ready to run the calculations.

Unfortunately the macros aren't working correctly, hence I will check with our Bus Client Team to resolve this.

I'd be happy to share the FIAs but they're probably too large to send via email (>30MB each).

Ideally I'd like to resolve the technical issues first so that you can also receive the results in one go.

Best regards,
Martin

Hi Martin

Hope you are well.
Just wondering about the Bus FIA for the 2 options of the Lido junction, has there been any progress on this?
If not could you send us over the draft template so that we can complete it?
This is critical for us now so we can decide on a preferred option for the Lido junction to take forward.

Many thanks,

Hi [redacted]

Sorry, I had made a start on the FIA but didn't have the chance to finish it. Will have to pick this up after Easter unless Joe can share.

Joe – I saved all FIA files in the LN / Lido Junction directory.

Best regards,
Martin

Hi Martin

Is there any update on the FIA out of interest? You mentioned this would be actioned by TfL after our recent meeting however don't believe we have received any feedback?

We are happy to provide support to TfL on this – are you able to send through any info to Steer so we can run the calculations on TfL behalf whilst you are on leave?

Kind regards,

[redacted]
