WELN Gate Submissions Summary.pdf
Ealing LN claims to date.msg

Hi Both

I found this useful summary of previous gate submissions.

Please can you confirm that Ealing should submit one new Gate 3 report in the Spring, inclusive of all schemes which have been delivered to concept design stage that we would like to take forward to detailed design, as well as those which have already been developed to detailed design which are mainly off-carriageway schemes? These projects (which were submitted to TfL previously as a "mini business case") could be accelerated to delivery assuming sufficient funding is available. The Gate 3 report would include results of any new data collection (TBC), benefits management strategy (TfL lead), engagement results and other requirements (such as UDL feedback, VE workshop, mystery shopping – TBC by TfL).

The Gate 3 report would also need to capture how much LN funding has been spent to date (attached), as well as how much potential Ealing council match funding is available. Roughly speaking a new 2.5 year programme would apply, with engagement/concept designs being completed in Yr 1, detailed design/implementation of smaller schemes in Yr 2 and implementation of larger schemes (such as Broadway) in Yr 3.

Please could you also let us know if the Gate Submission template be the same as before (in which case we could update previous versions). Are there any other document/gate submission requirements we should be aware of?

Best wishes,

[redacted]
