So Zero Tax, Zero Liability, Zero Number Plate Recognition, Zero Compensation, Zero "Cycle Person" registration. For Thousands and Cleary what will become Millions on their Payed, Personal TAXED Households and payed for Parking Spots. Let's Not even mention the complete and utter Queues of Cars and Vans Spewing out Fumes whilst Eco Friendly people sit at home. @TFL You are a joke

I can't see a registration plate so they'd not get caught. I wonder if they pay a fee to use the roads? They should as its a business.

Jakarta got rid of its Betchak cyclists 'cos they were allegedly slowing the traffic down (although I don't think it could get any slower). I had to give up riding my bicycle too as the mini-vans didn't give me any space.
