Hi Garry,

That is correct. Inspections will commence on 01 April and weekly updates will be provided. If issues are to be raised ad hoc, then that will be done as well. That should be okay for the briefing.

We had a meeting last Friday, with Nick O' Donnell, Director of Traffic & Engineering from Richmond and Wandsworth Council. We briefed him on our planned BD79 inspections and programme. We also advised him that we may disallow buses over the bridge depending on our findings and the severity of issues. He seemed to understand and wanted to be informed as early as possible of our planned interim and long term measures. We will continue to maintain regular feedback with Richmond.

Nick also advised that Richmond will support us on planned closures of the bridge. However, they preferred an extended/longer period for interim or main works as they were not keen on many short closures.

We also advised Nick that we are engaging with Linda Moss from TfL bus operations.

Many thanks

Thanks...so inspections currently planned to start on 1 April and the findings reviewed the following week...is it okay to put that (as the planned programme) into my briefing?

Hi Gary,
Please find attached the latest programme for inspections. We will be updating all on weekly basis once inspections commence.

Good Morning Garry

Anvar met them Friday just to give a heads up on the DB79 works.

Regards

Ian

Ian, Anvar,

Hammersmith Bridge will be raised at the Deputy Mayor/TfL meeting tomorrow by the Commissioner. This is simply to make the Deputy Mayor aware of the current position (she may well be aware of it via your comms channels anyway). Do you know if your comms team has raised anything to City Hall?

Given the impact a restriction would have on bus services (and given it could be imminent), it's best we (TfL) give City Hall a heads-up on our preparations should we need to enact bus changes.

Do we have the latest dates/programme for the inspections? I can drop these dates into the briefing if they are available.

Ian – did you manage to speak to Richmond last week? We (TfL) would like to engage with them on bus services but we were holding off until you had spoken to them.

Regards,

Garry.

Anvar,

Many thanks...if you can also send us the inspection programme when it is ready we'd be very grateful, as that will help us understand when we may need to be ready to react.

Thanks,

Garry

Hi Gary,

The inspection has not yet started. I am meeting Mott MacDonald Tomorrow to go through their method statements, risk assessments and programme. Duro discussed this with me yesterday and I have requested Mott MacDonald to produce a response action plan. I will forward a copy as soon as it is available.

Importance: High

Anvar,

I assume the inspections have started? Are you able to provide any details on the points below? If you have a response plan you can share then we (TfL) can get ourselves aligned to that would be great, especially in terms of bus changes.

Many thanks,

Garry

Anvar,

Can you confirm the latest schedule for the bridge inspections...so I can pass on details to buses?

Also, have you any predefined response plan, i.e. if we find defect X at location Y we will implement an immediate restriction/closure? Or is it a matter of waiting until all the inspections are finished?

Regards,

Garry
