

Upper Holloway Bridge: demolition and replacement planned between 26 December and 16 January

During the Christmas and New Year period, we plan to demolish and replace the bridge that carries the A1 Holloway Road over the railway lines near Upper Holloway station.

We will be doing everything we can to keep noise to a minimum, including installing noise-reducing barriers and acoustic covers on equipment, but unfortunately the nature of these works means that some disruption will be unavoidable. We sincerely apologise in advance for the inconvenience.

Noisy works can particularly be expected at the following times when we plan to demolish the bridge:

- From 10:00 to 17:00 on 26 December
- From 08:00 on 27 December to 17:00 on 28 December

Working times have been agreed with the London Borough of Islington.

Works to build the new bridge are planned to continue until 16 January 2017. There will be noisy works at times during this period, though we will continue working hard to minimise the disruption.
