09:10 Aldgate - RGI fault

The Service Controller reports that there is a Traction current indication fault on the Whitechapel - Tower Hill WB traction

current section resulting in the Rail Gap Indicator at Aldgate platform 1 flashing on and off continuously. Power Control were contacted who reports that the section is feeding normally so arrangements have been made to have the rail gap indicator "bagged" and taken out of service. As a result PCRO have been advised that in the event of the Whitechapel - Tower Hill traction current section being discharged the Moorgate - Aldgate O/R will also be discharged. The signalling department are investigating. ()

17:23 Farringdon - Fire Alarm Activated

The Farringdon CSS reports that the Fire alarm has activated and the Panel has gone into evacuation mode. The station was closed and evacuated with all services non stopping. LFB attended and after investigations had been carried out the panel was reset allowing the station to reopen at 17:50hrs. A 27 minute delay was recorded ()
