E-Scooters

It is unclear exactly what TfL's role is going to be. Once this has been clarified, it will be clearer what/how IDAG can support. The Mayor wants TfL to coordinate e-scooter trials rather than boroughs going it alone. Unsure if TfL will be issuing guidance to boroughs or setting the scope for trials. If we are to lead then an EQIA will need to be carried out swiftly.

IDAG suggested that we may need to set some time to review this properly. It was noted that there has been ongoing discussions at other forums around e-scooters including a huge debate at RNIB where a lot of points were raised that may be useful for feedback.
