Subject: RE: Royal Hospital Road 12/057

Morning Adam,

I know we briefly spoke about this yesterday and that Andy escalated the request but at the moment RBKC have no indication as to when we will be in a position to test the Vissim modelling to see whether we can achieve a pedestrian crossing/early release at this location. At the moment were receiving numerous enquiries at this site for when a decision on the crossing is likely.

I'm meeting with RBKC next Friday and I don't want to be in a position to say we haven't got an end date to when the modelling will be completed.

Once we get a forecast for the intergreen checks I assume we can forecast the remaining parts on the process?

I Look forward to hearing from you.

Hi Adam,
Any update on this please. Do we have a date from Engineering as to when the intergreens will be done.

Regards

Hi Adam,
Please find attached feasibility layout for RHR 12/057. Can you please arrange for TfL Engineering to undertake intergreen checks. You already have the PO which was sent by Ian before Xmas. Once we get confirmation of the intergreens we can look to start the Vissim modelling. The only change they may be added prior to modelling would be the early start to cyclist on a north/south approach.

Hi Rosemary, Happy New Year, I have copied you on the email as you did the original intergreen checks.

Regards
