Dear Jo

## UberPOOL

Thank you for the further information, the contents of which are noted.

The information you have supplied has been sought to understand how the service will operate and what measures you have in place to ensure the safety of passengers, drivers and other road users at all times.

We will make the Information Commissioner aware of the data sharing arrangements proposed in the information provided.

We note your intention to announce the launch of UberPOOL in the near future. Whilst it is not for TfL to approve this, I should remind you that it is, of course, for Uber to ensure that it is delivered safely and lawfully at all times. If it were to be found that this was not the case, then there could be implications for your operator's licence.

This is clearly a new type of service for customers and we look forward to seeing if it proves popular.

Yours sincerely

**Peter Blake**  
Director of Service Operations, Surface Transport
