

## Meeting with David Plouffe – Introduction (Palestra) – 10.12.2015 @ 16:30

### Attended by:

- Leon Daniels, MD Surface Transport (TfL)
- Garrett Emmerson, COO Surface Transport (TfL)
  
- David Plouffe, Uber
- Andrew Byrne, Uber
- Jo Bertram, Uber
  
- Mark Griffiths, Surface Government Relations Manager (TfL)

General Discussion		
	Notes	Actions
1	<p>The meeting was an introductory meeting with David Plouffe, SVP Policy and Strategy, Uber and Leon Daniels (LD) and Garrett Emmerson (GE).</p> <p><u>Topics Discussed:</u>            Regs Review;            Next Steps / Future;            Mayoral Stats;</p> <p><u>Regs Review:</u>            GE reiterated the published timelines around the consultation. It was stressed that the information is already in the public domain, so Uber would be aware of this as we all other Private Hire Operators.</p> <p>TfL has not made any conclusions on the outcomes of the Regs Review at this time. The consultation closes on 23 December 2015.</p> <p><u>Next Steps / Future:</u>            Uber shared statistics on Uber Pool in San Francisco and LA. Uber also provided an update on a new product called Uber Commute – this is a car pooling service.</p> <p>In January, Uber will trial Air Quality Sensors on some of its vehicles creating a live map of air quality.</p> <p>A discussion on autonomy of vehicles, car clubs and personal mobility followed. Both TfL and Uber shared their current thinking.</p> <p><u>Mayoral Statistics:</u>            Uber asked if TfL were aware where the Mayor got his data from regarding his recent statements about PHV vehicles. Uber feel the 1 in 10 vehicles in the Congestion Charge Zone is incorrect and this is closer to 3%. Uber have reviewed the data for their vehicles to try and understand the 1 in 10 number.</p>
