Earlier this morning, nobody showed up to distribute the masks on gatelines. TFL publicity photographer showed but wasn't aware of who was meant to be giving out masks. Informed CSM. After speaking to CSM I asked the stewards (3 of the 4 stewards on site) who were here for the station control if they have been briefed about the handing out of mask but they were not briefed)

█████ called and said it is meant to be the stewards (SES group handing out the masks)

Informed CSM and █████ informed that we are not the ones meant to be briefing the stewards on the mask process. Masks not distributed today.
