

Equipment Specification

Cycle Safety Mirror for Traffic Signals

Document reference: TES-106 – issue: 2.0

1. Cycle Safety Mirror for Traffic Signals

1.1. General Requirements

- 1.1.1. The equipment in this specification is to be referred to as a Cycle Safety Mirror.
- 1.1.2. The Cycle Safety Mirror will incorporate a mirror including all mounting brackets and fixings for attachment to a pole.
- 1.1.3. The Cycle Safety Mirror will satisfy the requirement in “Mirror at traffic signals warning of the presence of cyclists” in TSRGD 2016, Schedule 14, Part 1.
- 1.1.4. The mirror within the Cycle Safety Mirror will be 500mm in diameter.
- 1.1.5. The Cycle Safety Mirror will be able to be mounted above or to either side of any traffic signal arrangement, to allow the mirror to be positioned regardless of what traffic signal arrangement is present on the pole.
