All,

Kier have resurfaced the entire length of this route adjacent to the memorial which was carried out on the 27th January this was followed by laying the Blue MMA on the 7th February. Kier are confident that the surfacing is compliant and to demonstrate this will revisit the site to carry out a further SRV testing within the next 24hrs

Jessica tells me that we're sending someone out to investigate. Would be good to find out what they find ASAP in case we get media queries.

We'll need to have something clear to give them as this is a recurrent issue that we previously claimed to have resolved.

Importance: High

Hi all,

Reports of cyclists falling and injuries on CS7 at Stockwell today (22nd Feb) - and reports of lanes being greasy yesterday - on Twitter.

I've advised those reporting that I have passed it on urgently - please do keep me in the loop re updates.

Thanks,

Matt

Follow

@tfl cycle lane by stockwell War memorial is greasy (again) this morning. 3 of us lost control trying to brake for lights @lambeth_council

Three cyclists down on CS7 turn off at Stockwell to South Lambeth Rd this morning. Needs looking at @Tfl; dangerous when wet and otherwise

Hi [redacted] thanks for letting us know - have passed on for urgent attention by colleagues (Matt 🚲)

[redacted] 1h

[redacted] @TfL I haven't come down on it yet but I'm on tractor tyres for the winter.

1

[redacted] 1h

[redacted] I saw a guy come down and a two others were nursing injuries. Is it an iffy surface there, from the road to the 'pavé'?!

1

[redacted] 57m

[redacted] The turn is too sharp considering the speed of the traffic going straight on. Should have been a run-off to avoid braking.

[redacted] 12m

[redacted] @TfL lost control of my bike in the same place this morning, as did two people ahead of me, one of whom fell off.

  [Redacted] sent a private message to @TfL 21h  

 Re. CS7 Stockwell - are there plans to further improve the surface of the lane heading northbound? Thnx

 Referral to Cycling

 I ask as though it has been made better in part, much remains to be improved surface-wise. Very greasy still. 21h  

  Transport for London @tfl replied to a private message 19h 

 Hi there, can I ask for specific locations where you are finding it greasy so that I can inform the team. Thanks. (Matt )

  [Redacted] sent a private message to @TfL 19h  

 It's just after the now fixed section (where the left lane run off is) From there up to the lights at the main road intersection.
So from just about Clapham Road up to where the path intersects with South Lambeth Rd.
It is all sectioned off from the actual road.

 It's just a bad type of paint, or incorrect surface underneath. 19h  

 Thanks for the reply by the way 19h

  Transport for London @tfl replied to a private message 19h 

 Thank you - I'll pass this on and come back to you with an update when I have one. Appreciate you getting in touch. (Matt )

  [Redacted] sent a private message to @TfL 18h  

 No worries. Lots of peeps including myself came off on the now fixed bit, but more work needs done. Thanks again, appreciate your help.

 Commendation

Subject: Re: CS7 - Stockwell War Memorial - Cyclists Falling Off Due to Slippery Surface - NEW INCIDENT 18/01

The planned works for tonight have now been completed. The cycle lane was scabbed and dried off before the blue MMA was laid on-top. Visually I can see the surface already has a more rough texture, to provide more grip for cyclists. The route has reopened and is safe for cyclists to use.

To reiterate from my previous email - this is a the temporary measure and the full resurfacing of the cycle lanes (northbound and southbound) will be completed at a later date, I will confirm this when agreed with contractors.
