Section 169 – Highways Act 1980 – Illegal/Dangerous scaffolding on the Highway

Dear [REDACTED]

Transport for London is the Highway Authority for the Transport for London Road Network and has a duty to assert and protect the rights of the public to the use and enjoyment of 245 Streatham High Road.

A recent complaint and inspection has shown that the scaffolding on your premises is hazardous and in need of urgent repair and does not have a licence.

Please contact Asset Operations Licensing on 0845 600 1703 or email [REDACTED] to obtain a licence for your scaffold.

Failure to do so within the next 7 days may result in legal proceedings being taken against you.

Information about scaffold licences can be found at; <https://tfl.gov.uk/info-for/urban-planning-and-construction/our-land-and-infrastructure/highway-licences?intcmp=3496?intcmp=3496>

Yours sincerely,

Asset Operations Licensing
