Hi Justin,

Further to my phone message yesterday, are you able to send through the 2015 survey data that you reference in your technical note please?

Regards

Mark

Subject: Re: Paddington Quarter

Dear Dr Batten,

Following on from my email of last week, I've now been able to speak in more detail to Westminster and GWD with regards to the Section 106 agreement. We are still in discussions over some of the detail of the obligations around the underground station, but I understand that much of the rest of the agreement has been finalised and Westminster are intending to send you a copy of this, hopefully by the end of the week. However, I am not aware that a date for completion of the agreement has been set. We have also agreed with Westminster and GWD that the London Ambulance Service would be invited to be part of the transport steering group, given their interest in access to the hospital.

I also attach a drawing prepared by WSP which shows the changes made to the road layout following

completion of the Road Safety Audit, and highlights those areas where we have agreed with GWD and WCC that it would be appropriate for further work to be done at the detailed design stage in relation to your concerns about these aspects of GWD's proposals.

Again, please let me know if there is anything you would like to discuss further.

Regards

Mark Day

Dear Dr Batten,

Further to your meeting with TfL and the GLA on Tuesday, please find attached a letter with further information on the technical issues raised by the Trust. I hope to be able to send further information in the next few days, but if there is anything you would like to discuss in the meantime please let me know.

Regards

Mark
