Hi Jack, one very minor point under Camley Street and Pancras Way, if you could expand the bus improvements point to acknowledge Camden Council's willingness to work with TfL to route buses along Pancras Road to better serve existing and proposed developments. They have written to say that, letter attached, in return for our agreement to reallocate some KX bus section 106 to their highline project.

Just to keep the pressure on them a bit, would be good if that was set out clearly in a planning policy document!

Thanks

Patricia

Hi,

Please see attached for TfL's response to the site allocations review. Do let me know if there's anything else you require.

Many thanks,

Jack
