Subject: Air Quality Monitor - Vauxhall

Hi Raj

I hope you are well. I know there have been discussions in the past about moving the air quality monitor which at the moment sits near to one of the underground vents in the bus station at Vauxhall; both to get a clearer view of the actual levels of air pollution in the area, and also to anticipate a future move when the bus station is moved and the gyratory re-worked. Are you able to let me know who at TfL I could pick this conversation up with again?

Thanks and kind regards
