Hi [REDACTED]
This scheme is currently going through the engineering design process. I will speak to the Engineering team and come back to you this week.

I will set-up a meeting with you once I have had an update from the engineering team.

Regards
Astley

Hi Astley
Please can you update me on progress with this project .
We submitted this on 07 November 2022 , to ensure we can stay within our programme
I will like to pay for the job in this financial year –design and infrastructure cost

I am concerned that I am not having much update /progress with this scheme and this is affecting our delivery programme and payment plan .
Please

Hi PPD,
Please can I have an update on progress with this scheme?
This was submitted in November and we were told @Simpson Astley (ST) will be the PM for this project and main point of contact.
Having contacted Astley the feedback I get is that it's not been officially assigned to him yet.
Please can this be given some urgency as we aim to construct this scheme in summer this year .
Your prompt action will be much appreciated

Good morning Astley and happy new year,

I was wondering how TfL is progressing with the signal design for the junction above please? Would it be possible to have a meeting with our Southwark client officer, [REDACTED], to discuss the signal design and resolve any queries you may have, please?

Thank you and kind regards,

Hello,

The junction is on the borough network so there is no requirement for modelling. We are happy to audit modelling if the borough wants to assess the impact, but there is no requirement.

Regards,

David Oram

Subject: J08.023 - Dulwich Village / Calton Avenue - Traffic signals

Dear TfL,

The London Borough of Southwark (LBS) will be implementing a new junction layout at Dulwich Village with Calton Avenue in early summer 2023. LBS commissioned Metis-NRP to design the proposals for this junction and they were aimed to improve active modes of travel. As part of these changes, we require a new signal design of the junction.

Attached you will find:

- TfL request form - **PPD 3rd Party Request Form_Dulwich Village junction_J08.023.xlsm**
- £5k Purchase Order from LBS - **TfL PO.pdf**
- Proposed design layout (including proposed signal layout and method of control) - **7952-MNRP-HGN-DR-103-01.pdf**

Exact construction date of the civil works and signals will be confirmed in due course.

Could you undertake the signal design for the proposed layout at this junction at your earliest convenience, please?

Thank you and kind regards,

[REDACTED]
