**Subject:** RE: TFL/LBTH Bow Modelling Meeting

Hi Gordon,

I'm not what a MAP submission is and apologies but I haven't been on top of this as much as I should have since our last meeting. Our lead Cllr is pushing us for a way forward and I need to respond next week now it's been confirmed that the CFR5 work to the A11/Grove Road junction are not going ahead until December at the earliest. Can you clarify what an indicative assessment would consist of so I can make sure all that is required is prepared. We've done junction modelling for the three key junctions and working with buses to put together a monitoring plan.

In this meeting I also wanted to raise the fact that there is another scheme call Old Ford Road West that includes measures that will impact of the flow of traffic arriving at Grove Road from the west in the PM peak. Waned to discuss how this can be incorporated in our work.

Regards

[REDACTED]

**When:** 02 August 2021 14:00-15:00 (UTC+00:00) Dublin, Edinburgh, Lisbon, London.  
**Where:** Microsoft Teams Meeting

Hi [REDACTED]

I am on leave next week so will be unable to attend this.

I think the main bone of contention right now (but please correct me if I'm wrong) is that the ONE modelling exercise which Catherine would undertake wouldn't be up to the sufficient standard required for a MAP submission. However it was my understanding that since Tower Hamlets want to implement the Bow Liveable Streets scheme under an Experimental Traffic Order then there isn't actually a requirement for fully MAP-compliant modelling. I was expecting that an indicative assessment was all that Project Centre were hoping to provide?

Regards

Gordon

Hi All,

I've set this up in response to James's email (attached). I'm hoping we can move the project forward. Agenda to follow.

Thanks
