30 November 2017

Dear [REDACTED],

LEVC TX Taxi Model

This letter is confirmation that the LEVC manufactured TX taxi model, LM67 PEO, was examined by the Transport for London (TfL) Vehicle Policy Team at NSL inspection premises on 30 November 2017 and was found to conform to the 'Conditions of Fitness' 2007 as amended. TfL has now approved the TX model taxi for use as a licensed taxi in the Greater London area.

You have confirmed that the first production model of the TX taxi will commence from Vehicle Identification Number (VIN): SCRETA5T7HA000001.

I have added to our records all of the relevant documentation supplied by you including all EC M1 whole vehicle type approval certification; Type Approval No. e11*2007/46*4190*00.

Nothing in the above statement implies that I, or this office, endorse or recommend these products and this office reserves the right to withdraw authority for these vehicles to be licensed should any undesirable features become evident or are reported.

Yours sincerely, [REDACTED]
