REVISIONS INCORPORATED IN THIS TIMETABLE

All Week

During off peak periods and Saturdays and Sundays all trains will now generally operate to/from Stratford.

Stepping back at Stratford will now take place every day via platforms 14 and 15 only from 07.19 until 22.57½ (Mondays to Fridays), from 08.01½ until 22.57½ (Saturdays) and from 09.44½ until 19.40¾ (Sundays). During these periods platform 13 will be closed.

In consequence, one less train is required for off-peak service and will be stabled in Stratford Market Depot.

Train numbering has been revised to reflect that one less train is required for off-peak services.

The nomination of washing trains at Stratford Market Depot has been withdrawn and all trains starting or stabling via the arrival road that do not start or stable on shed roads have sufficient time to run via the washing plant.

Mondays to Fridays

During peak periods, the service pattern has been revised with four trains per hour reversing at each of West Hampstead, Willesden Green and Wembley Park. This allows the 30 trains per hour peak service to start earlier and finish later, operating for about 2½ hours in each direction in both morning and evening peak periods.

The routing of the early morning train that runs via Neasden Depot has been revised.

Saturdays

A TBTC loop testing train has been provided to run via Klondyke Sidings at Neasden Depot and Charing Cross.

ROUTEING OF TRAINS

Signal Operators may vary the routeing and platform working of trains in the best interests of the service.

Eastbound trains shown within this timetable as running 'via WB Line' will do so between Stratford Market Junction and Stratford.

ROUTEING OF TRAINS AT STRATFORD MARKET DEPOT (EAST END)

Trains starting or stabling at Stratford Market Depot (East End) will generally do so via the arrival road.

Any East End trains booked to start from the shed roads will be routed via the arrival road.

All trains starting or stabling via the arrival road but not running to/from the shed roads have sufficient run time to run via the wash road if required.

WORKING OF DE-ICING TRAINS

Certain trains are equipped to spray de-icing fluid from one of the trailer cars. Instructions for the operation of this equipment are contained in Rule Book No. 6, Section No. 6.

Trains which are required to be so equipped in this timetable are denoted by a "D" suffix to the train number, for example **301D**.

Trains should spray fluid at least every 2 to 3 hours between Stanmore and Finchley Road and between North Greenwich and Stratford.

First Trains/ Key Overnight Trains

The following trains are either first trains over sections of line or key trains operating overnight. In the event of there being a threat of icing, it is essential that the following trains convey de-icing trailers.
