Extending safety on the track certification

Due to the ongoing situation with COVID 19, London Underground has decided to further extend all safety on the track certification for work in traffic hours, depots, engineering hours and possessions.

Safety on the track certification that has expired after Tuesday 30 June 2020 will be extended to a new expiry date of Saturday 31 October 2020.

No further extension to track safety certification will be made under the current guidelines for COVID 19.

There is no requirement to obtain a replacement safety on the track certificate during this period; however expired safety on the track certificates must still be carried and shown as requested.
