Dear Sir/Madam,

Relocation of bus stop in Slewins Lane, Havering

As part of its efforts to improve bus services and facilities for its passengers, Transport for London (TfL) intends to relocate an existing bus stop 4 metres south on the public highway to a point 69 metres south of "The Drill" Roundabout, outside your property. The bus stop is being relocated to improve accessibility, and works should commence in September.

The bus stop location has been approved by TfL, following consultation with the local council and police as required by Section 23 of the London Passenger Transport Act 1969 and taking into account relevant highway and road safety concerns.

If you have any queries regarding the intention to install the bus stop, **please contact Customer Services**, stating the reference number above:

- TfL Customer Service, 4th floor, Zone Y4, 14 Pier Walk, London SE10 0ES
- Web tfl.gov.uk/contact
- Tel: 0343 222 1234

Yours sincerely,

Asset Operations Performance Manager
Transport for London
