Fitting Guidelines

Preferred installation heights should be observed.

Fix flag and boat components firmly and securely to the wall at the specified height using No's 10 or 12, x 35mm long screws, washers and corresponding plugs .

All kit must be spaced 5mm from the wall surface using flat washers and firmly and securely fitted using all provided fixing points.
A tolerance of 2mm should be allowed between assembled timetable display , header and lower boxes to maintain door operation.

Note 1

Designated mobility stops should have the timetable assembly installed at a height of 830mm above finished floor level.

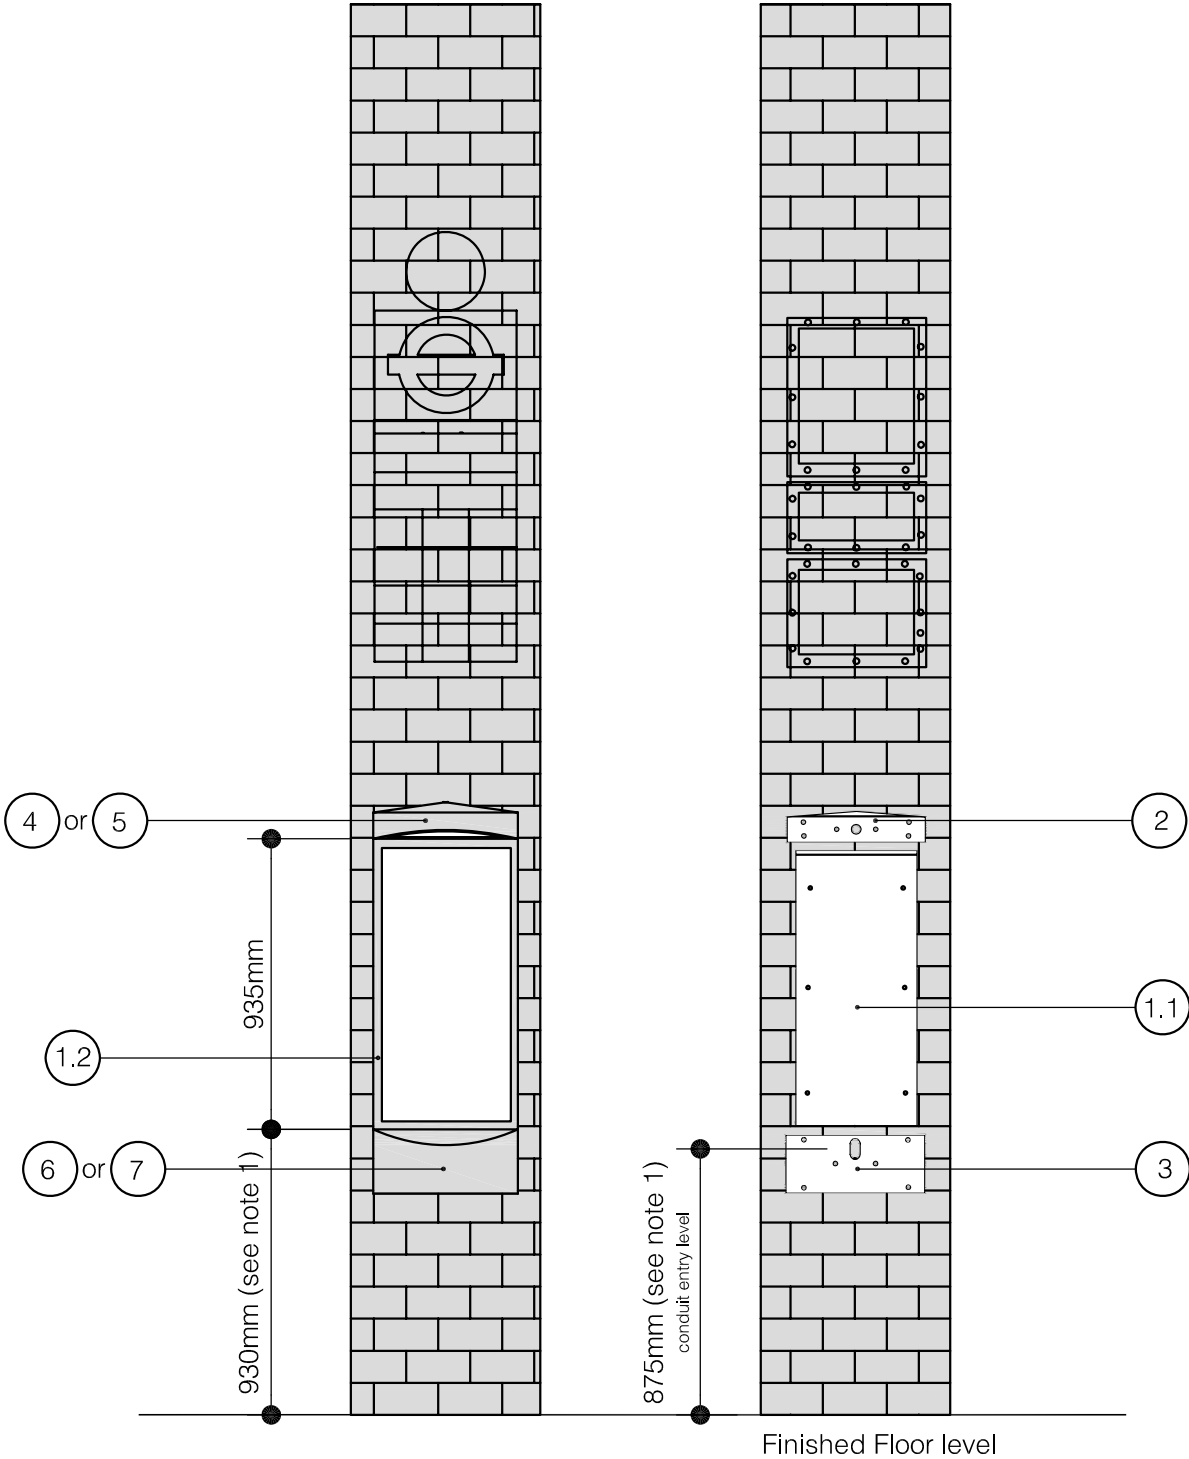

Note 2

All fixings must be proofed against any corrosion likely to occur in use.

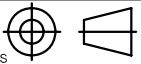

For wall mounted flag and boat fixing details refer to Drg No. TEL-LTB 260/11/018
