Hi [Redacted]

Thank you for hosting me last week. As mentioned we have extensive experience implementing our solutions globally, we will be happy to work alongside TFL to help scope a pilot and final solution once relevant, either using our existing products or develop a bespoke solution tailored to your needs in order to help prevent suicides.

Please find attached slides from our meeting and a GDPR guide, at the bottom of this email you can find more in depth details about our Better Tomorrow dashboard.

Please also view some clips:

Best Regards,
