---

Good Afternoon,

I hope this email finds you well.

As promised, please find attached the Market Sounding Report Summary for the Technology Preventing Suicide Early Market Engagement activity.

I would like to thank all those that submitted a response to the Market Sounding Questionnaire (MSQ). Overall, the number of parties that expressed an interest in the project (34 suppliers), 68% provided a response to the MSQ (23). This is very encouraging and has assured TfL that there is genuine interest in the market and a wide range of capable suppliers.

The MSQ responses have provided us with a vast amount of valuable information and points of interest, which will be taken into consideration as we develop our Feasibility Study and enable us to put forward a business case to seek a decision from senior management regarding funding.

I would just like to reiterate that we are committed to keeping interested parties informed of our progress on the project and once a decision has been made in early October we will advise next steps. However, if you have any questions in the meantime, please do not hesitate to contact me. It is politely requested that all questions come via this route to ensure we maintain a fully transparent process and audit trail.

Kind regards
