[REDACTED]

I should be around next Thursday. I have a team meeting 2-3 but otherwise available.

My office now based at Endeavour Square Stratford is that helps to know.

City Planning reorg just settling down and someone from Growth Areas and Interchange should be getting assigned to Stratford as well.

Good morning Tim

I understand from my colleagues at Momentum that you have been most closely involved as the TfL liaison for the MSG development.

You will see from my email at the bottom of this short chain that I am endeavouring to arrange a session for the 19<sup>th</sup> September, to discuss with TfL and Network Rail the activities I am tasked with undertaking together with some early thoughts.

Is this something you would be able to join?

Thanks David

Good morning Lee

I don't appear to have your number either, nor for a Tim Neil who has also been mentioned.

I am out of the office from 14:00 today and if we could speak in advance or in the morning that would be excellent.

Hi Tony  
Lee Almond (copied) now deals with Stratford for Ariella.  
David

Good morning Ariella

I've been endeavouring to contact David regarding Stratford, but I understand from Network Rail that this may now be your responsibility. Apologies in advance if that's not correct.

I have been appointed by Madison Square Gardens to consider changes that might be required to the station to accommodate their anticipated customers. They wish to consider this in the light of the wider approach to alleviating current and future congestion at the station, employing the findings of the Mott MacDonald Stratford Station Engineering Commentary, and to do this in discussion with Network Rail and TfL.

I have spoken with Network Rail's [REDACTED] and we will be exchanging information and hoping to arrange a sit down with my initial thoughts on 19<sup>th</sup> September. Is this something that you and possibly others in TfL are able to participate in?

I don't seem to have your telephone number and it would be good to talk this through in the next day or so.
