**Attachments:** Letter to Heidi Alexander 7 August 2019.pdf

Hi Elizabeth

We've had some more challenge to the Silvertown scheme and I attach the letter for your information. Question 3 relates to air quality and I have extracted the question below.

*3. New air quality assessments that show clearly how air quality varies if future Mayors reduce or abolish the Silvertown and Blackwall tolls, as they have authority to do - and that include the effects of new land use i.e. the two new planned freight depots on each side of the tunnel.*

Have we undertaken AQ assessments for 'no charge'?

Thanks  
John
