

Transport for London

PUBLIC NOTICE

The A205 London Road/Sydenham Hill junction (London Borough of Lewisham and Southwark)

Transport for London Street Management following a direction from the Secretary of State for the Environment and Regions, has converted to cycle tracks parts of widths of footways using powers under section 65(1) of the Highways Act 1980:-

- (i) the north side of London Road in the London Borough of Lewisham; and
- (ii) the west side of Sydenham Hill in the London Borough of Southwark.

The new cycle track referred to in (i) above will be approximately 90 metres long on the north side of London Road, between its junction with Wood Vale and a point 18 metres east of the pelican crossing at the junction with Sydenham Hill. Between Wood Vale and the pelican crossing the cycle track will be two-way segregated and, east of the pelican crossing, will be one-way eastbound.

The new cycle track referred to in (ii) above will be approximately 22 metres long on the west side of Sydenham Hill, south of its junction with London Road and be one-way northbound.

In each case a white line or kerb and other traffic signs will be installed to indicate which part of the existing footway will remain as a footway, and which part will become a cycle track.

Any person wishing to comment on this proposal should write to Transport for London, Street Management, Windsor House, 50 Victoria Street, London SW1H 0TL, quoting reference GLA/2001/371 by the 17th of July 2001.

This 3rd day of July 2001
