Yes in an ideal world that is our aim but sometimes the PCSO are delayed or we have roads with identical timeframes so we have to balance the deployments to achieve the best overall results.

Kind Regards

Ok, thanks [REDACTED]

Yes it is an LSBR request that has had many complaints come in not only from Cllrs but also from the local MP.

I was under the understanding that the times of speeding given on each speed report meant that officers would go to the location at that time to assess the speeding?

I'll wait for [REDACTED] to let us know whether the PSCO deployment can happen.

Kind regards

[REDACTED]

I assume this is a LBSR location for LaserCam deployment having read the email trail. If so we don't have specific deployment times other than early turn or late turn shifts. It may be possible for [REDACTED] to reply this evening whilst he is working his night duty shift to see if we can link directly with the PCSO's deploying to this location this week but given the last minute request to arrange this in conjunction with the Cllr's this may not be feasible. We allow the PCSO's the flexibility within their shift to deploy as and when other demands permit.

Kind Regards

Hi [REDACTED],

Just a reminder to complete the answers at the bottom of this email so police deployment can make a speed assessment of this location.

The information is key to building the picture of what is happening at Croxted Road so that officers can enforce on the same days and times as the problems are occurring.

Please could you forward through at your earliest convenience so this can be forwarded to the police officers.

Kind regards

[REDACTED]

Hi [REDACTED]

My colleagues in CPOS are looking to undertake a speed assessment at this location to understand what (if any) enforcement measures are required. They have requested the following information. Are you able to help with this?

Thank you in advance.

Kind regards

[REDACTED]

- Part of Croxted Road is borough owned (Lambeth) and the section near the junction with A205 is TLRN. Specifically, where is the speeding problem?
- What is the speed limit for the borough owned part of the road if this is where the issue with speed is?
- Which direction of travel is the speeding occurring, e.g northbound, etc?
- What times of the day is speeding most prevalent on this road?
- What days of the week is speeding most prevalent?
- How long has speeding been a problem on this road?
- In the last 12 months how many complaints about speeding has been received?
- Please provide any information of engineering measures that may have taken place? (I know the area has Community Road Watch members, so will include that.
- Are you aware of any future engineering measures planned for the road?

The section north of the South Circ. is Lambeth highway.

I suggest TfL would need to lead in conjunction with the Met as this relates to a request for a speed camera.

Hi [REDACTED]

Is it that Southwark are responsible for Croxted Road? Wouldn't it be best for them to lead on this meeting? Happy to help in any way I can.

Subject: Speeding on Croxted Road and a Speed Camera

Dear All

My apologies for cc'ing everyone in but as Lambeth Highways, the Metropolitan Police and TFL everyone has a regulatory stake in Croxted Road traffic management.

The problem of speeding on the road is really well documented and we are in the position where there have been several serious accidents. Most recently there was a collision on the road between Pymers Mead and Turney Road, where Lambeth are the highways authority. On the stretch of road where Southwark are the authority there are speed cameras.

The recent speedwatch, run by the community with support of PCSO Stanlick has shown the extent of the problem. There is a real danger of fatality and in the last year there have been at least two hospitalisations that we know of as a result of speeding accidents.

Either myself or Cllr Cavanagh have talked to you about a speedcamera and in the absence of a clearly established way forward for Croxted, I would like to suggest a meeting to work out how one could be placed on the section of road that is Lambeth's responsibility. Cllr Chowdhury as cabinet member has in principle agreed to this and gave a formal written answer to full council last year to this effect.

If any availability could be offered I would be really happy to facilitate this asap so we can get a plan in place to deliver a camera for this very dangerous stretch of road.

Best
