Subject: SERIOUS CONGESTION: A3 Kingston By-pass between Tolworth Underpass and Hook Underpass(TLRN) KT5 (LB Kingston Upon Thames) – Emergency Works
Date: 12 February 2019 16:48:58

Incident Ref 4
SERIOUS CONGESTION: A3 Kingston By-pass between Tolworth Underpass and Hook Underpass(TLRN) KT5 (LB Kingston Upon Thames) – Emergency Works
Essential barrier maintenance works.
Incident Category
Level 1
Impact & Mitigation
The A3 Kingston By-pass southbound has been reduced to two lanes (from three) due to emergency repairs to damaged barriers. Our Highway Contractors are on scene carrying out the necessary works. We continue to chase for a completion date and relevant updates. Impact to traffic is currently serious with delays back to Shannon Corner Flyover. We are reviewing traffic signal contingency plans in the area to assist both traffic flow and bus movements. Buses are currently experiencing moderate delays of up to 20 minutes. There are no pedal cycle or pedestrian related safety issues identified at present.
Communications
We are tweeting road and bus users and have set VMS. We are updating the TfL website.
Expected Resolution Time
Not known. Further report to follow.
