8	<p>AS/AC proposed to amalgamate Nightingale Road Bus Stop (LA) with (LB). SC feels this is contentious due to difficulty in implementing the bus stop where they are currently. He has spoken to Jonathon Goodson in Enfield in the past and would like them to look at the bus stops along this section again with TfL. There is the potential to move one closer to Asda so people don't have to carry their shopping as far.</p>	<p>Southbound Orchard Road bus stop (LZ) to accommodate bus route 349 and 279 from Bus Stop LA in addition to routes 191 and 491, currently stopping there. This would be closer to ASDA supermarket which will be convenient to passengers and reduce the delay generated by locating bus stop LA in-carriageway. Bus stop LB would continue to be served by Route 191 only. We have investigated providing a bus stop south of Nightingale Road. However, there is a need to provide a loading facility for the shops and south of this there is not enough space to provide 3.25m traffic lane adjacent to a bus stop. If the service road were to be maintained as existing, this would only provide space for a 15m bus stop.</p>
