DR	Danielle Rooney	Sponsor - RSM	TfL
TG	Tom Gardner	Design Engineer	TfL

Key Notes of Review

Detailed Comments

Ref	Report section	Comment by	Comment	Summary of recommended actions (28/9/15)	Designer Response
Rosendale Rd/ A205 South Circular		(comments arose from a sponsor review meeting held on 26/11/15 which was attended by DL, NC, DR and TG. Comments also included from BD)	Due to the location of utilities in the area and local opposition to any road closures or banned turns, it was agreed that the design was the most applicable to the location and its restrictions. Use of colour on the rd was also supported due to the A205 being TLRN.	Please consider 7.5m deep ASLs, especially on the TLRN.	There isn't sufficient demand for 7.5m ASLs so 5m thought most appropriate.
